

Oil / Solvent Based Lubricants

Asbury Carbons offers several oil and solvent based lubricants / concentrates that can be used for a variety of metal working, glass, and other high temperature and wear applications. These lubricants are formulated to provide the user or blender with products that provide a cost effective additive or that can be used as is for a variety of applications. These products all contain additives and fillers that offer good lubricating, excellent release and thermal properties. All our products contain high quality additives and optimally sized graphite powders that will increase tool life and offer the user maximum performance in most demanding applications.

Product	Additive	Carrier	% Solids	Typical Applications
Graphokote 1	Graphite	Oil	10%	Colloidal suspension for use in forging and glass applications
Graphokote 7	Graphite	Butylene Glycol	10%	Mold Release, Chain Lubricant
Graphokote 410S	Graphite	VM&P Naphtha	53%	Casting, Dry Film lubricant
Graphokote 450	Graphite	VM&P Naphtha	44%	Extrusion, Casting
Graphokote 495	Graphite	VM&P Naphtha	47%	Casting, Dry Film lubricant
Graphokote 461	Graphite	Mineral Spirits	40%	Dry film lubricant
Graphokote 613	Graphite	Alcohol	20%	Conductive and dry film coating
Graphokote 670	Graphite	Oil	36%	Forging, additive for high performance lubricants
Graphokote 672	Graphite	Oil	30%	Additive for glass forming lubricants
Graphokote 752	Graphite	Mineral Spirits	54%	Sliding surfaces
Graphokote 771	Graphite	Oil	30%	High performance additive for glass forming lubricants
