

# Asbury Products for the Production of Specialty Graphite and Mechanical Carbons

With Asbury's expertise in Raw Materials and processing of carbon materials, Asbury provides the Specialty Graphite and Mechanical Carbons Industry with a variety of products all custom processed to meet the demands of the end application.

## Materials

### Green Cokes

### Calcined Cokes

Sponge / Shot / Fluid / Needle

### Calcined Pitch Coke

### Metallurgical Coke

### Natural Graphite

Flake / Sri Lankan / Amorphous

### Synthetic Graphite

Isotropic / Anisotropic

## Processing

### Screening

Standard and for tight distributions

### Grinding

Standard Flour grades

Fine Grinding to 3 – 5 micron

Ultra fine grinding 1 – 2 micron

### Blending

Different carbons or your products

### Packaging

Pails / Drums / Bags / Sack / Bulk

To your desired weight

**Product Data Sheets on our Products and additional information is available on request**

**Asbury understands the need for high quality raw materials to the proper specification. The Specialty Graphite and Mechanical Carbons producer is looking for attributes such as:**

High Surface Area Powders (Ultra Fine) Low Surface Area Powders (Lower Binder Demand)

Low and Ultra Low Metal Cokes (Special) Medium Metal Cokes (Standard)

Low Sulfur Products (Production Powders or Furnace Pack)

High Volatile Materials (Increase Final Density)

Materials to Enhance Lubricity or Wear

**Asbury has over 100 years in the processing of Graphite and Carbon products. This experience and our ability to access key raw materials make Asbury the company of choice for all your processing and raw material needs.**
