

Graphites and Other Products for the DRILLING INDUSTRY

Asbury, through its product division Cummings-Moore Graphite, is the industry leader in providing quality graphite, carbon and other lubricants for the drilling industry. From its drilling mud additive to its highly engineered materials for fluid loss and circulation control, Cummings – Moore Graphite continues to provide drilling companies what they need. Also, lubricants for torque and drag, as well as materials for the manufacture of pipe thread compounds, are our specialty.

	GRADE	TYPE
For Drilling Mud Manufacturing	928	Graphite
	076	Graphite
For Loss Circulation	CPC 60	Coke
	3609	Graphite
	262	Carbon
	265	Carbon
For Drilling Fluid Lubrication	928	Graphite
For Torque and Drag Lube	928	Graphite
	81120	Colloidal
	A99	Graphite
	3609	Graphite
For Pipe Thread Compounds	APS	Graphite
	A99	Graphite
	076 (API 5A2)	Graphite
	160D	Mica
	Tech Fine	MolyDisulfide

Manufacturing in Louisiana, California, Michigan, Pennsylvania and New Jersey.
