

Drilling Fluid Additives

Asbury is the leader in providing quality graphite and carbon additives for the drilling industry. Our products are designed and engineered to aid in seepage control, fracture fluid loss, lubrication for torque and drag and friction reducers.

Grade	Type	Size
<u>Seepage Control</u>		
076-OF	Amorphous graphite	-200 mesh
928	Amorphous graphite	-325 mesh
<u>Fracture Control</u>		
CP Fine	Carbon	100 x 325
CP Coarse	Carbon	30 x 100
CB-2	Carbon	20 x 325
CP-3	Carbon	30 x 0
<u>Lubricants & Additives</u>		
076-OF	Amorphous Graphite	-200 mesh
928	Amorphous Graphite	-325 mesh
3609	Flake Graphite	-100 mesh
GK 645	Suspension	5 μ avg
<u>Multipurpose Products</u>		
CB-Xtra Fine	Carbon	80 x 325 mesh
CB-Fine	Carbon	20 x 325 mesh
CB-Medium	Carbon	20 x 325 mesh
CB-Coarse	Carbon	20 X 30 mesh

Serving the Drilling Mud and Fluids Industry with Quality Products and Service
Product Data Sheets Available on request

- ◆ Asbury will custom engineer our products to your specification.
- ◆ Asbury will blend multiple products
- ◆ Asbury will package in our bag or yours.
