|----------------------------|---------------------|-------------------------|
| <b>Typical Properties:</b> | NLGI Grade          | : 2                     |
|                            | Thickener           | : Organo – clay gel     |
|                            | Penetration (@77°F) | : 275                   |
|                            | Dropping Point      | : None                  |
|                            | Color               | : Golden Yellow         |
|                            | Shelf Life          | : 1 year from ship date |

---

**Method of Use:** *MPG* can be applied on a variety of metal surfaces. It is not guaranteed to be compatible with other greases- thoroughly remove old grease before using. Frequent re-lubrication is necessary at elevated temperatures.

---

**Precautions:** The customary safeguards employed when storing, handling and application should be employed. To prevent contamination, container should be sealed when not in use. Please refer to Material Safety Data Sheet for proper first aid instructions.

---

**Container Size:** 14.5 oz cartridges (24 per case)
