

DECLARATION OF SUITABILITY FOR ORGANIC FARMING:

Seed SLIK Graphite, Seed SLIK Talc, Seed SLIK Blend

Thursday, December 18, 2025

In regard to United States' 7 CFR 205.105:

- The products listed above contain naturally-occurring minerals only.
- No synthetic materials are present.
- No nonsynthetic substances prohibited by 205.602 or 205.604.

Per Canadian Organic Standards, the products listed above are permitted as soil amendments and processing aids per Table 4.2 in CAN/CGSB-32.311 under the category of "Mined minerals, unprocessed".

Accordingly, to our knowledge these products conform to US and Canadian requirements for organic production and handling.

Thank you,

Dylan Belding
